**DETAILED ACTION**

An amendment of 3/12/07 canceled all claims, and added new claims 31-42.

Claims examined on the merits are 31-42, which are all claims in the case.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 112***

Claims 31-42 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Support is not found in the specification for all of the ranges in claim 31, the percent oxygen range in claim 40 and the temperatures of claim 42. The portions of the specification referred to in the amendment for support do not recite all the ranges, the percent oxygen range and temperatures. The specific page and line where each range and temperature is recited should be pointed out.

***Claim Rejections - 35 USC § 112***

Claims 31-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1657

In c) of claim 1, reciting "submitting" and "submitted" to require applying the conditions recited to the construct is confusing. The claim should require "applying" the conditions to the construct.

Line 17 of claim 1 is confusing by requiring a "frequency" for  
5 applying pressure when the pressure required previously can be constant. It is uncertain how a constant pressure can have a frequency.

### *Conclusion*

The claims are free of the prior art.

10 Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

15 A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action  
20 is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
